Audits

Our streamlined and non-intrusive telecom audit process has saved businesses over \$700M. We'll provide a comprehensive inventory, savings strategy, and the right market intelligence to help you save money and find the most cost-effective solutions.

You'll get...

- 1** An audit and inventory of your entire technology ecosystem.
- 2** Vendor-neutral recommendations for new solutions that fit your needs at best-in-class pricing.
- 3** A detailed review of bills and invoices to find errors, unneeded charges, and more.
- 4** A clear savings strategy that grows your cash flow over time.
- 5** Complete contract review to find potential areas of overspending.

Guidance

We are the knowledgeable, unbiased partner that will guide you to the right telecom and IT solutions to help grow your business today and into the future.

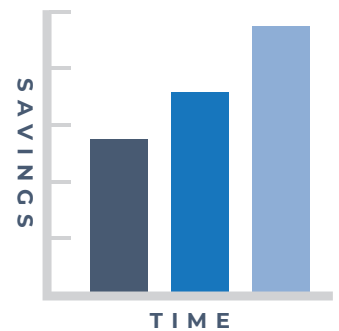

We Offer...

- Telecom project management that will carry your projects across the finish line and scale with your business as it grows.
- RFP administration that meets your needs. We can write the RFP and let you handle it from there or take on the entire project for you.
- Telecom expense management services that pick up where your audit leaves off, so your budget stays intact for the long term.
- Ongoing post-audit management for three years at no additional cost to you.

Why PAG?

We're dedicated to helping your company cut costs so you can grow, and we do this by offering full-service technology consulting and guidance services. We simplify telecom and IT decision-making for you – and you don't pay us a dime until we find you cost savings.

Partnership With PAG: Your Savings Growth Over Time

Businesses across the globe have saved over \$700M by implementing our strategies and advice. We will guide you to the best telecom and IT solutions for your business.

PAG is the only firm in the country to offer three years of post-audit, follow-up service management at no extra cost.
