

# Does Your Business Need a Cyber Security Audit?

Last year, we saw the continued rise of organizations shifting to remote and hybrid work models – and cyber criminals taking advantage of security gaps. Businesses suffered 50% more cyber attack attempts per week in 2021, and although 43% of those attacks were aimed at SMBs, only 14% say they're prepared to defend themselves.<sup>1</sup>

Is your business prepared to defend against a cyber security attack? Navigate through our checklist to find out:

1	<p><b>Are you aware of the different types of cyber attacks you could fall victim to?</b></p> <p><b>YES</b> - I'm up to speed on modern cyber threats, and I know the most common attacks include: phishing/social engineering (57% of attacks), compromised/stolen devices (33%), and credential theft (30%).</p> <p><b>NO</b> - I didn't realize cyber security threats have changed since 2020.</p>	<p><b>YES</b></p> <input type="checkbox"/>	<p><b>NO</b></p> <input type="checkbox"/>
2	<p><b>Have you experienced a cyber attack or attack attempt in the past 12 months?</b></p> <p><b>YES</b> - And because I'm aware that 66% of small businesses have been attacked, I had the proper measures in place to protect my business.</p> <p><b>NO</b> - And I'm lucky because I'm not sure how to assess my organization's vulnerability.</p>	<p><b>YES</b></p> <input type="checkbox"/>	<p><b>NO</b></p> <input type="checkbox"/>
3	<p><b>Are your security processes effective at mitigating attacks?</b></p> <p><b>YES</b> - I even work with an expert cyber security partner to audit my security processes regularly.</p> <p><b>NO</b> - I'm part of the 45% of businesses that say their processes are ineffective, but I don't know what to do about it.</p>	<p><b>YES</b></p> <input type="checkbox"/>	<p><b>NO</b></p> <input type="checkbox"/>
4	<p><b>Would your employees know what to do in the event of a cyber attack?</b></p> <p><b>YES</b> - I invest in comprehensive cyber security training since I know low security awareness among employees is one of the greatest risks.</p> <p><b>NO</b> - My employees probably wouldn't have a clue about how to defend against cyber threats.</p>	<p><b>YES</b></p> <input type="checkbox"/>	<p><b>NO</b></p> <input type="checkbox"/>
5	<p><b>Have you reached out to an expert partner to help with your cyber security needs?</b></p> <p><b>YES</b> - I know that a lot of businesses are not financially prepared to recover from a cyber attack, so I've taken precautions to protect my business.</p> <p><b>NO</b> - I'd love to keep my business safe, but I have no idea where to start.</p>	<p><b>YES</b></p> <input type="checkbox"/>	<p><b>NO</b></p> <input type="checkbox"/>

If you answered "yes" to most of these questions, congratulations! You have a solid cyber security foundation in place. However, if you answered "no" to three or more, it's time to reach out to the experts for a cyber security audit.

PAG can help protect your business with a zero-risk cyber security audit and services to ensure you are prepared to defend against any cyber attack. [Connect with our experts](#) today.
